Pitch an app idea
and help get it built in 24 hr!

The Roaring Fork Technologists are hosting their first hackathon this weekend Friday, November 2nd and Saturday, November 3rd.

How does it work?

Come to join us this First Friday at 201 Main Street to pitch an idea you have of an app that can benefit our community in any way. It can be anything from something to prevent road kill, to something that might promote economic growth. The idea is yours to share!

Qualifications

None! You can be a technologist or a pole-dancer. As long as you are willing to contribute to the ideas, design, or coding of the app in any way you are encouraged to participate!

Friday Nov. 2	Saturday Nov. 3
## Pitch Night	## Hack Day
201 Main St. Carbondale, Co	115 Alpine St. Marble, CO
Pitches will start at 6 pm. After everyone has shared their ideas all of the people participating will have the chance to form teams around the ideas and work towards developing a prototype. The winning prototypes will be rewarded with ski passes from SkiCo., Hot Spring passes, and more!	Teams have till 4:30 PM on Saturday, when judging begins, to produce a prototype. Teams can meet at GlenX (free), on their own, or at the main Hack Day location in Marble (Justins house) where there will be food, games, and distractions to make the prototyping more exciting.

This is an End Of Year Celebration

Come for judging and socializing on Saturday
even if you can't make the rest of the App
Challenge
